A BULLETIN

At 6 o'clock the following bulletin was issued from Republican hendquarters:
"Remucky ass gone Republican for the first time in the history in a presidential year. Official returns from the countries and reliable unofficial returns from the other eight counties give McKiney as plurality. Four years ago the state gave Cleveland 40% plurality over Harrison, and gave Weaver, the Populist candidate, 25,000 votes. The fuelon of the Democrats and the Populists this year was complete and the victory for McKinley means, therefore, a reversal of 6,000 votes based on the figures of 132.
"Our allver friends make a great ado over 2,000 Republican gain in the Eleventh district, but there is nothing remarkable in a gain of 2,000 Democratic plurality in a single country in the First district. They also affect surprise that the Republican state committee has been sticking to its claim of 46 to 000 plurality for McKinley in soite of the discovery of great errors against Bryan in Hardin, Fayette, Calloway and other counties and say that whenever Bryan made a gain in this way I sent a crymer dispatch to the Eleventh district for a corresponding addition to the McKinley plurality.

"These errors which the newspapers made a great ado in each succeeding issue were their own and not ours and exulain how some of the newspapers gave Markiniey anywhere from 2.00 to 2.000 plurality, when the committee's figures, oren to the world, stayed between 500 and 600 for three days.

"At 5 o'clock on the morning after the

plinality, when the committee's figures, onen to the world, stayed batween 400 and 600 for three days.

"At 5 o'clock on the morning after the election, we realized that the result, would be very close and wired every county charman who cound be reached to rush comolete official returns and to closely watch the official court. On the strength of these messages, I, received a bulletin on Wednesslay evening which was published in all the Louisville papers, saying among other things, the bemocrats will go to the Elevenin district with 18,50 in their favor. Returns from one-haif of the counties of the Eleventh district airready in assure considerably over 14,000 Republished purality.

"This bulletin was based on actual uncomeral figures from every county but five and has stood the test from last Wednesday until today in spite of errary of newspaper correspondents, and the surprising claims of free silver leaders evidently based upon estimates rather than upon election returns. This committee has had nothing to do with the conflicting reports of newspapers and the big raims and looses; they have been finding in smofficial returns for several they have not changed our tables at any time.

"The official count has resulted in occasional changes from our unofficial figures but they have been finding in smofficial returns any that the Democrats go to the flavorth with 12,152 in their favor and are met there with 12,752 Republican plurality, giving a net plurality of 426 for McKinley.

His View of the Remarkable Campaign Just Brought to a Close.

WHY MR. BRYAN SUFFERED DEFEAT

Against Cleveland Democracy. Administration of McKinley Will Be

One of Great Promises and Very Little Performances-There Is No Way on Earth by Which It Can Bring Prosperity to the American People-People's Party in 1900 Will Be the Nucleus Around Which

WASHINGTON, Nov. 7 .- Chairman Butler of the Populist national committee has issued the following:

To the People of the United States: "In the remarkable campaign just closed the People's party was the party that supported solidly and unitedly the great and vital issues repre sented in the candidacy of Mr. Bryan. This was natural, for the People's

party came into existence to bring to the front and press to victory the principles of Lincoln and Jefferson, already long discarded by the two old parties. The money power, feeling rea-sonably sure of its control and domnation over the leaders of the Republican party in 1892, gave its support to the candidacy of Grover Cleveland for the special purpose of having him, through the use of patronage and otherwise, crush out the silver sentiment in the south and make the leaders of that party as completely subservient as those in the Republican party. To accomplish this purpose four cabinet ministers were selected from the south and an unusually large amount of patronage used on political leaders to the same end. It will be remembered that Mr. Cleveland demanded that the Democratic senators and congressmen give a decisive victory in the interest of the gold standard, before he would give out the postoffices. This deeplaid plan might have succeeded had not the People's party at this juncture sprung into existence and exposed the plot, stood in the breach and appealed to the patriotic hosts of both parties to check the scheme of the people's decorded and appealed to the patriotic hosts of both parties to check the scheme of the people's decorded and appealed to the patriotic hosts of both parties to check the scheme of the people's decorded and really to the pople's decorded and really to the people's decorded. through the use of patronage and to the patriotic hosts of both parties to check the scheme of the people's despoilers and rally to the common detence. The People's party forced the Democratic organization to repudiate Clevelandism and return to correct fundamental principles. Not only this, the People's party then forced the Republican party to cease hedging and straddling for the purpose of deceiving the people, and drove them to take a stand on one side of the vital issue at stake. Now being squarely joined it was evident those influences in the Democratic party which had dominated and debauched the party for a quarter Democratic party which had dominated and debauched the party for a quarter of a century would be driven to support the party that took position on the side of trusts, monopolies and money gamblers. While, on the other hand, it is evident that large percentages of the Republican party favored the principles now squarely forced to the front, only a small per cent in this sampaign supported them because campaign supported them because they found them under the Democratic banner.

CONFIDENCE. "Had it not been for the prejudice against the Democratic name, as well as want of confidence in Democratic promises, for which it must be admitted that the past experience furnishes ample ground, the majority of the voters of the country, in spite of the tremendous and unparalleled forces put forward by the Republican managers, would have cast their votes for financial reform and Independence. A party with high patriotism and unselfish devotion to principle, greater than ever oction to principle, greater than ever before exhibited by any other party, stepped outside of its organization to throw its two million votes solidly for Bryan. Had not more than this numisryan. Had not more than this num-ber of those who called themselves Democrats in 1892 given their sup-port to Mr. McKinley, the cause of the people and American principles would have triumphed this year. This would have triumphed this year. This class of Democrats will surely support the party of monopolies in the future. Their places in the ranks of reform bosts must be taken by the particite Republicans. In fact, Bryan would have been elected in this contest had even 25,000 silver Republicans come to the reacte. The election of McKinley and the triumph of the geld standard does not express the desires and send-ments of the people. The majority oppose the policy for which he stands and will so vote whenever an opportunity is presented for proper alignment. The remarkable and brilliant campaign of William J. Bryan would have aligned these forces and marched them to triumphain victory if any candidate or leader in America could have done so under a Democratic banhave done so under a Democratic ban-

CANNOT DO IT.

administration of McKinley "The administration of McKinley cannot bring prosperity to the American people. The mills cannot be kept open, idle labor given employment and general prosperity restored and maintained until the wealth producers receive fair returns for their labor and are thus enabled to purchase. Gold standard and monopoly rule, to the continuation of which Mr. McKinley stands piedged, means four more years of falling prices, four more years of

fact invincible. The position of the People's party in this great contest has convinced every patriotic American that the party can be trusted to stand for the principles of good government and the interests of the people under any and all circumstances.

"Therefore the People's party in 1890 will be the nucleus around which the patriotic hosts must and will guther to redeem the betrayed republic and restore prosperity to the oppressed and outraged people.

Edward Wilson, a miner employed in
No. 4 gangway, noticed the water rapidly rising in this place and investigation showel that the breastwork in No. I was breaking. Wilson immediately gave the alarm inside, but the water rose with such rapidity that the mineral rose with such rapidity that the miners were obliged to wade several hundred feet through water up to their necks, and before they reached the bottom of the slope were frequently obliged to swim. One of the men lost his cap bearing the mining lamp and was left behind in the darkness. Three miners, after heroic efforts, returned and found after heroic efforts, returned and found the missing man floundering about in deep water and so much exhausted that he was hardly able to keep his head above water. They finally succeeded, however, in getting him out, No one was injured.

SAN FRANCISCO, Nov. 7.-Thomas Lloyd, the editor of the London Statist, descants upon the results of Tuesday's

The outcome of the election was a surprise to both parties. The best informed were anxious up to the very end. Mc-Kinley's majority is a decisive proof that the people are resolved to fulfill their obligations to the letter. The spirit of confidence has been strengthened; trade will now gradually improve and prosperity will return; but there are no grounds for a boom. It remains to be seen whather the Republican leaders will prove equal to the occasion. McKinley is pledged to pass a tariff bill. Some hope that this will be done by the present congress, but many think thits will be impossible on account of the senate, where opposition may be expected to tariff legislation. The senate has not materially changed and may stop all bills until the currency question is disposed of. Many are opposed to borrowing for the purpose of retiring greenbacks, as this money saved the Union in times of danger. It is likely that nothing will be done in the way of agitation through fear of further panic and bad times. There is good reason for judicious speculation now, as properties are cheap. Hoarding will soon cease, credit will recover and banks will seen care is exercised. Much seems to be necessary as a prerequisite before permanent improvement can be achieved. Nothing more than mere optimism may throw back reform and injure the country. The best of Americans hope for a slow recovery rather than a boom. "The outcome of the election was a sur-
